Artist bios

Baltazar Pérez is a Chilean visual information designer whose visualizations have developed both academically and independently, working as a freelancer for the media and different clients all over the world. His research and artistic side work has been presented at Tokyo, Berlin, Porto, Vancouver and Madrid. He has presented twice at VISAP and soon will be featured in Ars Electronica's Polygonal Forest. He is currently focused on his PhD on visual analytics at TU Wien, Austria.

Ilana Levin is a Chilean graphic designer focusing on editorial design and analogue printing techniques. Her work has been presented twice at VISAP and soon will be featured in Ars Electronica's Polygonal Forest, as part of the new media art collective Space Between Characters.
